NORTH COUNTIES DRYWALL

Streamline Drywall Incorporated as a partner under a labor service agreement worked out as planned for us at project 1515 S Van Ness. The communication was clear and transparency was high. The expectations that were agreed upon and set from the beginning seemed to be something that was taken seriously and the desire to perform was present.

Streamline's employees gelled well with NCD, and the integration was natural with no additional headaches. In speaking with our site Foreman on a few different occasions about Streamlines labor services, he typically had positive things to say on how the day in, day out operations were going on the job site. Which was always good to hear positive feedback.
